DESCRIPTION

Welcome to the unique and innovative project of these independent villas in Alfaz del Pi. Designed with minimal environmental impact in mind, these homes stand out for their use of wood as the main construction material and the installation of photovoltaic panels in each of them. As for the quality of the materials, these houses have been built with first quality materials, which guarantees longterm durability and an exceptional finish. Upon entering, a spacious living room that invites comfort and family coexistence. The kitchen, fully furnished and equipped. In addition, you will have three spacious bedrooms that will give you a quiet rest and two bathrooms. All homes are equipped with ducted air conditioning installation. As an added privilege, each villa has its own private pool. You also have a private parking space to protect your vehicle. In addition, you have the opportunity to add extras to your villa, customizing it even more according to your tastes and needs. This allows you to adapt it to your lifestyle and make it a truly unique home.
